

Nine Patch

Key Block (19/50 actual size)

A	A	A
A	A	A
A	A	A

This box
measures:
1-inch by
1-inch

This block measures
3-inch without seam allow
and and 3 1/2-inch with
seam allowance.

Print one copy on your printer and
measure block.

If the copy prints correctly (blocks
measure to specification),
congratulations!

If the copy does not print correctly, go to
your printer settings and modify the
printer scale. Change increase/
decrease by 1-2% and reprint/
remeasure. Repeat exercise until the
size is correct. Record that size as you
will need to adjust to that setting EACH
TIME you print a template or foundation!
